Kalawati ayurvedic medical college and research centre & hospital gorha kasganj

Internal Quality Assurance Cell (IQAC):-

In today's competitive landscape of higher education, Kalawati ayurvedic medical college and research centre & hospital gorha kasganj need a dedicated system for continuous improvement. An Internal Quality Assurance Cell (IQAC) serves as a vital framework to achieve this goal. Benefits of construction an effective IQAC specifically for strengthening quality and enhancing measures in a Kalawati ayurvedic medical college and research centre & hospital gorha kasganj:

1. Composition and Leadership:

- The IQAC of Kalawati ayurvedic medical college and research centre & hospital gorha kasganj is a representative body comprising faculty members (Ayurveda experts, curriculum developers), non-teaching staff, students, and an external member (renowned Ayurveda practitioner/academic).
- +The Principal is the chairperson, demonstrating institutional commitment.
- Appointment of coordinators for specific functions like curriculum development, teaching-learning processes, research, and student support services.

2. Defining Objectives and Functions:

- The IQAC's objectives:
 - Developing a quality culture within the college.
 - Monitoring and evaluating curriculum, teaching methods, and student learning outcomes.
 - Promoting research and innovation in Ayurveda education.
 - Fostering collaborations with other institutions and industry partners.
 - Facilitating internal communication and feedback mechanisms.
- Specific functions for each area, encompassing activities like:
 - Conduction of periodic curriculum reviews and revisions.
 - Organization of workshops and training programs for faculty on pedagogy, research methodology, and new developments in Ayurveda.
 - Implementation of student feedback mechanisms through surveys and focus groups.
 - Encouragement of faculty and student research through internal grants and mentorship programs.
 - Publish an annual quality assurance report (AQAR) for internal review and submission to accrediting bodies.

3. Quality Parameters and Benchmarks:

- Identification of key parameters for quality assessment in Ayurveda education, including:
 - Curriculum design and relevance to current trends in Ayurveda according to NCISM.
 - Faculty qualifications, teaching skills, and research contributions.
 - Infrastructure, facilities, and resources for teaching and research in Ayurveda.
 - Student learning outcomes, including clinical practice skills.
 - Placement record and employability of graduates.

4. Developing a Quality Culture:

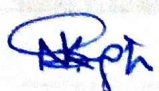

- Foster a culture of quality within the college through:
 - Organization of seminars and workshops on quality assurance in Ayurveda education.
 - Reorganization of and rewarding faculty and students for outstanding contributions.
 - Encouragement of a culture of open communication and feedback between faculty, staff, and students.
 - Promotion of student participation in quality improvement initiatives.

5. Effective Documentation and Reporting:

- Maintain of comprehensive documentation of the IQAC's activities, including minutes of meetings, action plans, and assessment reports.
- Develop a user-friendly system for data collection, analysis, and reports.
- A detailed Annual Quality Assurance Report (AQAR) outlining the college's progress towards quality enhancement goals. The AQAR is a valuable tool for internal reflection and for external accreditation purposes.

Enhancement of Ayurveda Education Through IQAC:

A well-structured IQAC with clear objectives, functions, and a commitment to quality, Kalawati ayurvedic medical college and research centre & hospital gorha kasganj is achieving significant improvements in their educational delivery. This will ultimately lead to better-trained graduates, equipped with the knowledge and skills to excel in the field of Ayurveda and contribute to its advancement.
